

Success Stories: Credit Card Processing Fee Reduction

Every merchant account is unique and requires a customized cost- reduction strategy

- Overcharging is due to numerous factors, including incorrect account setup, transaction misclassification, and improperly applied discounts
- Detailed expert review is required to identify problems and develop an effective strategy to extract savings
- Micro adjustments must be implemented in a specific sequence to ensure cost reduction opportunities are not put at risk

Verisave's proprietary process delivers consistent savings for clients

- Verisave is not a card processor, we are a cost reduction firm specializing in credit card processing fee reduction
- Over 20 years, we have identified \$3 billion of savings
- We address every component of processing fees, including interchange and card association fees
- We continuously monitor and re-optimize client accounts to ensure savings are realized
- Verisave does the work for you so you can focus on strategic priorities
